

A Global Climate Plan

Adrien Fabre (CNRS, CIRED)

September 2024

My work

My work

Douenne & Fabre (*AEJ: EP*, 2020): People accept a climate policy when they *perceive* it as:
1. **effective** at reducing emissions, 2. **fair**, and 3. **in their interest**.

My work

Douenne & Fabre (*AEJ: EP*, 2020): People accept a climate policy when they *perceive* it as:

1. **effective** at reducing emissions, 2. **fair**, and 3. **in their interest**.

Dechezleprêtre et al. (*AER*, forthcoming): **People are concerned about climate change** across the world but lack knowledge on climate policies.

My work

Level at which climate policies are needed (Multiple choice question)

Global

Federal/Continental

State/National

Local

Global climate policies (5-Likert scale)

Global carbon budget (+2°C) divided in tradable country shares

Global tax on millionaires to finance low-income countries

Global democratic assembly on climate change

Global tax on GHG financing a global basic income

Burden sharing preferences for the global carbon budget (5-Likert)

Emission share should be in proportion to population*

Countries that have emitted more since 1990 should receive a lower share*

Countries that will be hurt more by CC should receive a higher share*

Emission share should be in proportion to current emissions

My work

Douenne & Fabre (*AEJ: EP*, 2020): People accept a climate policy when they *perceive* it as:
1. **effective** at reducing emissions, 2. **fair**, and 3. **in their interest**.

Dechezleprêtre et al. (*AER*, forthcoming): **People are concerned about climate change** across the world but lack knowledge on climate policies.

Fabre, Douenne & Mattauch: **People support global redistribution** and a Global Climate Plan.

My work

		United States	Europe	France	Germany	Spain	United Kingdom
Global climate scheme (GCS)*	54	76	80	71	81	74	
Payments from high-income countries to compensate low-income countries for climate damages	55	71	72	70	79	70	
High-income countries funding renewable energy in low-income countries	68	82	82	82	85	81	
High-income countries contributing \$100 billion per year to help low-income countries adapt to climate change	60	76	77	79	79	71	
Cancellation of low-income countries' public debt	46	53	53	43	62	61	
Democratise international institutions (UN, IMF) by making a country's voting right proportional to its population	58	71	69	69	78	72	
Removing tariffs on imports from low-income countries	62	73	58	73	80	83	
A minimum wage in all countries at 50% of local median wage	63	80	80	78	81	83	
Fight tax evasion by creating a global financial register to record ownership of all assets	62	87	90	86	91	87	
A maximum wealth limit of \$10 billion (US) / €100 million (Eu) for each human	46	62	58	62	65	67	
National tax on millionaires funding public services	73	85	81	87	89	88	
Global tax on millionaires funding low-income countries	69	84	84	84	87	83	

My work

Douenne & Fabre (*AEJ: EP*, 2020): People accept a climate policy when they *perceive* it as:

1. **effective** at reducing emissions, 2. **fair**, and 3. **in their interest**.

Dechezleprêtre et al. (*AER*, forthcoming): **People are concerned about climate change** across the world but lack knowledge on climate policies.

Fabre, Douenne & Mattauch: **People support global redistribution** and a Global Climate Plan.

⇒ I founded **Global Redistribution Advocates**.

Global Redistribution Advocates

A GLOBAL PLAN
TO
END CLIMATE CHANGE
AND EXTREME POVERTY

The Global Climate Plan

The Global Climate Plan

How can we guarantee an emissions trajectory in line with the carbon budget?

The Global Climate Plan

How can we guarantee an emissions trajectory in line with the carbon budget?

A yearly **cap on global emissions**

The Global Climate Plan

How can we guarantee an emissions trajectory in line with the carbon budget?

A yearly **cap on global emissions**

The Global Climate Plan

How can we guarantee an emissions trajectory in line with the carbon budget?

A yearly **cap on global emissions** (or a global carbon price).

Emissions permits should be tradable and auctioned to polluting firms upstream.

The Global Climate Plan

How can we guarantee an emissions trajectory in line with the carbon budget?

A yearly **cap on global emissions** (or a global carbon price).

Emissions permits should be tradable and auctioned to polluting firms upstream.

How to allocate carbon pricing revenues?

The Global Climate Plan

How can we guarantee an emissions trajectory in line with the carbon budget?

A yearly **cap on global emissions** (or a global carbon price).

Emissions permits should be tradable and auctioned to polluting firms upstream.

How to allocate carbon pricing revenues?

Simple focal point: an **equal cash transfer** for all human adults.

The Global Climate Plan

How can we guarantee an emissions trajectory in line with the carbon budget?

A yearly **cap on global emissions** (or a global carbon price).

Emissions permits should be tradable and auctioned to polluting firms upstream.

How to allocate carbon pricing revenues?

Simple focal point: an **equal cash transfer** for all human adults.

This “global basic income” of \$30-50/month would alleviate extreme poverty.

The Global Climate Plan

Distributive effects of the Global Climate Plan throughout the century.
